

California OES Weather Threat Briefing

Saturday, January 29, 2022
9:00 AM PST

Day 1 (Saturday): Gusty east to northeast winds will continue through Saturday morning across the southern California mountains, foothills, and nearby valleys through late morning, with gusts of 30-50 mph expected.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

01/29/22 - 02/04/22

Friday - Thursday

- Gusty Santa Ana winds will persist across the southern California mountains, foothills, and nearby valleys through Saturday morning. Wind gusts of 30-50 mph are likely, which may lead to some downed trees and power lines.
- Patchy overnight and morning dense fog will continue this weekend and into next week across portions of the Central Valley
- Some light precipitation is possible Saturday across far southern California, as well as Sunday night and early Monday across far northwest California; otherwise dry weather expected to continue statewide through much of next week
- Another round of gusty offshore winds is possible across parts of the Central Valley and southern California Tuesday through Thursday
